

1254 Hydraulic Rock Drill

The Simba 1254 is a hydraulic production drill rig made for limited tunnel sizes. The high-penetration rock drills give you the power to increase your production, no matter the rock ...

The Simba 1254 is widely used in medium-drift mining for long-hole production drilling. It is capable of ring drilling and parallel drilling in 3 m lateral displacement with high performance ...

The Simba 1254 is widely used in medium-drift mining for long-hole production drilling. It is capable of ring drilling and parallel drilling in 3 m lateral displacement with high performance ...

The Simba 1254 is a long-hole drilling rig, which is developed by Atlas Copco for ring drilling parallel holes in the side walls and also in downward and upward directions.

The RD927L is a heavy-duty hydraulic rock drill designed for large diameter longhole drilling. The construction of the rock drill is based on three body modules tied together with short side bolts; ...

This happens several thousand times per minute in some cases and is much more effective than electric drills or core drills in rock and concrete. There are many things to consider when ...

Furukawa FRD is the industry leader in innovative technologies for rock drills, blasthole drills, hydraulic rock breakers & breaking attachments for construction, excavating, ...

Epiroc rock drills are core components to your drilling equipment. To ensure the safest and most efficient operation of your equipment, we offer a full line of ...

Furukawa FRD is the industry leader in innovative technologies for rock drills, blasthole drills, hydraulic rock breakers & breaking attachments for ...

Hebei Iron Ore - Epiroc Simba 1254 Mid-Depth Hole Mining Vehicle originally equipped with the 1838 hydraulic rock drill, now upgraded to the Woserld A18D/L h...

The high-penetration rock drills give you the power to increase your production, no matter the rock conditions. Dual stingers with an angle reading system make setup quick and easy while ...

This document provides maintenance instructions for a Simba 1254 machine. It includes checking firefighting equipment, maintaining the feed unit, and performing mechanical adjustments and ...

This document provides maintenance instructions for a Simba 1254 machine. It includes checking firefighting

1254 Hydraulic Rock Drill

equipment, maintaining the feed unit, and ...

Four actions for successful drilling Action 1: Percussive Impact Percussive drilling breaks the rock by hammering impacts transferred from the rock drill to the drill bit at the bottom of the hole.

Precise drill rig The Simba 1254 is a hydraulic production drill rig made for limited tunnel sizes. The high-penetration rock drills give you the power to increase your production, no matter the ...

The Simba 1254 is a hydraulic production drill rig made for limited tunnel sizes. The high penetration rock drills give you the power to increase your production, no matter the rock ...

The Simba 1254 is widely used in medium-drift mining for long-hole production drilling. It is capable of ring drilling and parallel drilling in 3m lateral ...

The Rilon hydraulic rock drill and splitter attachments are innovative machines designed to perform rock excavation and crushing operations more efficiently ...

We supply drilling equipment and rock drill supplies for mining and construction projects in the USA and Canada. Get a free quote on drilling tools.

The Simba 1254 is a hydraulic production drill rig for long-hole mining used for medium-to-large diameter holes ranging from 64 to 89 mm. It is widely used ...

Epiroc's Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground ...
