

The integrated drilling and splitting machine is a kind of engineering machinery that integrates the functions of drilling and splitting. It directly installs the rock drill and splitter on the excavator or ...

When contractors, utilities and others want efficient drilling without a large compressor, they choose the RDR 48 M rock drill. Light to work with and using hydraulic power for impact and ...

Epiroc COP 1838HD+ Hydraulic Rock Drill excels in underground mining with high-torque output (18 kW) and a dual-damping system, minimizing jamming risks while extending tool life . Its ...

Furukawa FRD is the industry leader in innovative technologies for rock drills, blasthole drills, hydraulic rock breakers & breaking attachments for ...

Hydraulic System: The hydraulic system of a hydraulic rock drill is a critical component, and high-quality hydraulic components can be costly. Maintaining precise control of hydraulic pressure ...

Four actions for successful drilling Action 1: Percussive Impact Percussive drilling breaks the rock by hammering impacts transferred from the rock drill to the drill bit at the bottom of the hole.

Ranger(TM) DX800 is a hydraulic, diesel-powered, self-propelled top hammer drill rig with an ergonomic cabin and rod handling system. Typical applications are ...

Marini designs and produces certified hydraulic rock drill attachments ready to be installed on mini, midi and big self-propelled machines. The drilling equipment ...

Leading manufacturer of rock drilling machines in India. Explore about our company and our range of high-performance drills for mining, construction, ...

In 2019, Jiangxi WOSERLD Hydraulic Rock Drilling Co., Ltd. was established in Pingxiang, Jiangxi Province. Over the years, WOSERLD has gradually become one of the globally ...

Epiroc rock drills are core components to your drilling equipment. To ensure the safest and most efficient operation of you equipment, we offer a full line of support specific to these ...

Ürün Özellikleri: 3115 3548 00 NUT Our company is a full hydraulic rock drill manufacturer. It also provides after-sales spare parts support. The variety of our products is quite high. Our ...

Our Hydraulic Rock Drill, the HD20, has a built in air compressor that removes drill cuttings from the hole.

3548 Hydraulic Rock Drill

Epiroc rock drills are core components to your drilling equipment. To ensure the safest and most efficient operation of your equipment, we offer a full line of ...

Hydraulic System: The hydraulic system of a hydraulic rock drill is a critical component, and high-quality hydraulic components can be costly. Maintaining ...

The heavy-duty front head design makes this rock drill optimal for face drilling. Service tools are available to facilitate precise and correct machine maintenance ensuring equipment safety and ...

Hydraulic rock drills offer greater power and are typically used for heavy-duty drilling tasks; they are common in large-scale construction and ...

Sandvik RD525 hydraulic rock drill is engineered for face drilling applications in Sandvik mine development and tunneling jumbos. It is versatile, with suitability for bolt-hole, exploration and ...

Integrated hydraulic rock drill and splitter have fast drilling speed, large splitting force, and flexible movement of the whole machine. It can work on any working face from various angles and can ...

Traxxon is a leading supplier of surface drill rigs from Sandvik in Canada, providing precision rock drilling equipment for challenging applications.

There are many things to consider when choosing a pneumatic rock drill, as drills come in several weight classes and sizes. The smallest pneumatic hand drill weighs in around 8 pounds while ...

This versatile excavator attachment combines the ability to drill precise holes in rock and then split it, increasing efficiency and reducing the need for multiple ...

Integrated Hydraulic Rock Drill & splitter An integrated hydraulic rock drill and splitter is a powerful and efficient tool for rock excavation projects. This ...

The hydraulic rock drill is a rock drilling machine that uses high-pressure oil as a power to push the piston to impact the drill and attaches an independent ...

The Rilon hydraulic rock drill and splitter attachments are innovative machines designed to perform rock excavation and crushing operations more efficiently ...

Welcome to Jiangxi Siton Machinery Manufacturing Co., Ltd.! Professional underground machine manufacturer since 1992 in China! We provide provide complete sets of equipment and ...

3548 Hydraulic Rock Drill

Rock Drills Rock drilling is tough work, but we always try to make it as easy as possible for you. The Atlas Copco rock drills are designed for various types of drilling in construction and mining ...

Our drills are equipped with the latest innovations to ensure reliability, safety and ease of operation, including heavy duty undercarriages, ...

The integrated drilling and splitting machine is a kind of engineering machinery that integrates the functions of drilling and splitting. It directly installs the rock ...

The integrated rock drill and splitter is a non-blasting rock crushing equipment that integrates rock drilling and splitting rock. The perfect combination of rock ...

3115 3548 00 NUT | Our company is a full hydraulic rock drill manufacturer. It also provides after-sales spare parts support. The variety of our products is quite high. Our products are the result ...

Original New Atlas Copco Epiroc COP 1638+ 1838+ 2238+ Hydraulic Rock Drill The COP 1638+ is a hydraulic rock drill for high penetration in underground ...

The RD927L is a heavy-duty hydraulic rock drill designed for large diameter longhole drilling. The construction of the rock drill is based on three body modules tied together with short side bolts; ...
