What is a smartroc D65 drill rig?

The SmartROC D65 down-the-hole drill rig brings the future of mining within your reach today. Give your operation the chance to profit from the added intelligence of this market-leading drill rig.

Which rig is best for DTH drilling?

Proven and dependable rigs for DTH drilling in mining and large quarry applications, the FlexiROC D60 and D65 are rugged and multifunctional. They are built to take on the toughest drilling demands and are ready to exceed your expectations. Built for high efficiency mining, the DTH hammer benefits from a precisely matched compressor.

How many meter rods can a smartroc D65 take?

The SmartROC D65 is available with an optional extra long feed (XLF). It carries 8 meter rods with a diameter of 89, 102, 114, 127 or 140 mm. The feed can also be easily adapted to take 6 meter rods if required. The XLF option means that the rig spends less time threading and unthreading rods.

What is flexiroc D65?

With a robust, rugged build, the FlexiROC D65 offers superior operational efficiency, ensuring fast and precise drilling results. Its advanced technology optimizes drilling speed and accuracy, increasing overall productivity while reducing operational costs.
