

For efficiency reasons, the drilling site and the geothermal plant should be located near populated areas, whose buildings will be heated with the generated thermal energy. Herrenknecht's deep ...

Automated Rig Technology The exploration of new energy deposits is one of the global challenges for future energy supply. Whether the development of onshore and offshore oil and ...

Turkish President Recep Tayyip Erdogan announced the purchase of two new floating drilling rigs, West Draco and West Dorado, for \$490 ...

Shifting work to shore, such as preparing drill pipes in boxes, further reduces high offshore labor costs. Our hydraulic offshore rig solutions apply to hook loads of 150-750 tonnes. The field ...

Herrenknecht already took the high Australian safety standards into account when designing the tunnel boring machines. The specific modification of the air filter systems, for example, played ...

Herrenknecht Vertical's rigs and components are used for drilling and workover activities in widely ranging applications. Our hydraulic rig technology ...

With our highly automated deep drilling rigs, new energy sources at great depths can be accessed safely and efficiently even in difficult terrain. Highly specialized individual companies within the ...

Herrenknecht Vertical is a German manufacturer of onshore and offshore drilling rigs and equipment. Our automated drilling technology enables contractors ...

Bavarian Molasse / Northern German basin, Germany Herrenknecht Vertical deep drilling rigs have a great track record in geothermal energy. Customers" ...

THE DRIVING FORCE IN DEEP DRILLING. Herrenknecht Vertical GmbH, a subsidiary of Herrenknecht AG, designs and manufactures deep drilling rigs and equipment for wells down ...

As a subsidiary of Herrenknecht AG, Herrenknecht Vertical specializes in the construction of deep drilling rigs, which are individually designed and manufactured to customer specifications. The ...

The Herrenknecht Vertical slingshot rig, a self-erecting, telescopic cylinder rig for drilling in remote areas for oil and gas as well as geothermal. The rig is equipped with a slingshot substructure ...

As a Your contact person subsidiary of Herrenknecht AG, Herrenknecht Vertical specializes in the

Draco drilling rigs by herrenknecht

construction of deep drilling rigs, which are individually designed and manufactured to ...

Optimized technology based on proven Herrenknecht solutions Herrenknecht has been using customized drilling rigs for rock support or geological exploration in tunnel boring machines of ...

Herrenknecht Vertical delivered two hydraulic deep drilling rigs for a large Petrobras oilfield development campaign in Bahia region, a poorly accessible ...

Combined with various masts and substructures, our adaptable onshore rigs enable efficient drilling in both remote and built-up areas, for quick, standardized wells with frequent rig moves, ...

SDD-Rigs von Herrenknecht vereinen die Technologie und Vorteile der bewährten Verfahren Horizontal Directional Drilling (HDD) und Vertical Directional Drilling (VDD). Bei beiden ...

Horizontal Drilling Rigs from Herrenknecht are a cost effective, fast, and ecological option for installing pipelines through different ground conditions crossing beneath obstacles such as ...

We offer the complete product portfolio in mechanized tunnelling technology. Under the umbrella of the Herrenknecht Group, a strong team of highly specialized individual companies provides ...

Herrenknecht AG has acquired a majority stake in H. Anger's & Söhne Bohr- und Brunnenbaugesellschaft mbH with retroactive effect from January 1, 2023. This will further ...

With horizontal directional drilling technology from Herrenknecht, pipelines can be installed rapidly, economically, and with minimized impact on ...

Diamond Offshore entered into an agreement with Eldorado Drilling, the owner of the West Dorado and West Draco, to market the rigs in ...

7th-generation ultra-deepwater drillships. Eldorado Drilling's high-spec drillships are equipped with state-of-the-art drilling equipment.

rig type for oil and gas as well as geothermal drilling. The rig concept combines the expertise of Herrenknecht Vertical in automated, hydraulic drilling rigs with the parent company's ...

The epoch-making Gotthard Base Tunnel, the new diameter world record of 15.43 meters in Shanghai, the first geothermal deep drilling rig or the innovative Direct Pipe method - ...

Entrepreneur Dr. Martin Herrenknecht met with Markus Söder last Friday. The Bavarian Minister President visited the drilling site of a geothermal project. The deep drilling rig...

Draco drilling rigs by herrenknecht

Bavarian Molasse / Northern German basin, Germany Herrenknecht Vertical deep drilling rigs have a great track record in geothermal energy. Customers' drilling crews have produced ...

The middle section carries the necessary equipment such as telescopic drill rigs, hydraulic hammers and shotcrete system for the excavation and support work. The production logistics ...

The rig can be towed directly to the drilling position by a suitable truck (customer supply), road traffic regulations must be checked in the country of designation.

State oil company TPAO and Turkey's Minister of Energy and Natural Resources Alparslan Bayraktar have confirmed that TPAO has purchased two 7th generation 12,000-ft ...

Herrenknecht Vertical is supplying the first deep drilling rig - known as the 'Innovative Hydraulic Rig' - to China. The rig's high level of automation allows precise and ...

Herrenknecht Vertical rigs and equipment are field-proven in oil, gas and geothermal drilling projects globally, both onshore and offshore. Together with ...

The innovative deep drilling rigs made by Herrenknecht Vertical have several advantages in comparison to conventional rigs, both for exploratory drills in oil and gas fields and for deep ...
