

# Electrical circuit of drilling rig supplier in congo

Where are Bentec drilling rigs made?

Many years of experience have led Bentec to become one of the world's leading manufacturers of high-quality drilling rig solutions and best-in-class drilling rig components. Bentec's headquarters are located in Bad Bentheim, Germany, with additional production and service facilities in Tyumen, Russia and Nizwa, Sultanate of Oman.

What makes a good company in the DRC?

Collaboration with National and International reputed Companies. Be a company recognized for its good practices in the execution of projects in the DRC, meeting the expectations of the client by delivering the required agreed upon targets safely, taking due care of our employees' health while protecting the environment.

What can be extended with the rig control system?

The Bentec ANTi COLliSiON SySTEM can be extended with the Rig Control System, which prevents collision with all other drilling equipment on the rig such as pipe handling systems, casing stabbing boards or cherry pickers.

Where are the driller's controls located?

The driller's controls are located on the drill floor and serve to control all functions of the Top Drive. The plugged connections located outside the container significantly reduce the rig move time. The VFD unit, a Bentec-own development, is a perfectly aligned and highly reliable system.
