

Germany Drilling Hammer manufacturer

Are drill bits made in Germany?

(The Short Answer) Finding drill bits made in Germany is more difficult than you might think. But I managed to find 3 companies that definitely manufacture drill bits in Germany. They are Wemaro, Keil, and Heller Tools. It looks like the vast majority of large German tool companies don't actually produce that many products in Germany.

Who makes Guhring drill bits?

Here's what I found. Guhring is a German-based company that manufactures a variety of tools and tool accessories, this includes drill bits. Its headquarters is located in Albstadt-Ebingen, Germany, but it has facilities dotted all around the world.

Where are Heller tools drill bits made?

It is a very well-known company thanks to its long-lasting and durable drill bits. From drill bits that go through granite, masonry, and even reinforced concrete, Heller Tools has it all. From the information I was able to find, it looks like Heller Tools manufactures its products at a facility in Dinklage, Germany.

Where are Drill tools made?

In 1849 the industrial production of drill tools begins in the newly-built works in Schmalkalden. In 1928 Heller becomes the first company in the world to manufacture tungsten carbide tipped drill bits in serial production. In 1945 after the end of the Second World War the company relocates to Bremen and makes a fresh start there.

Who makes Hilti hammer drills?

Hilti drilling machines are a household name. The specialist for fastening technology from Liechtenstein has existed since 1941 and also has a German subsidiary, Hilti Deutschland AG. Electropneumatic hammer drills have been the core business for decades. Hilti Deutschland employs around 2,700 people.
