Sangomar offshore oil and gas field (formerly the SNE field) is located around 100km from Dakar, the capital city of Senegal. Modec selected Hamworthy Pumps as the supplier of a complete pump package for Sangomar Offshore Field in Senegal. (Credit: Hamworthy Pumps) FPSO Leopold Senghor. (Credit: Woodside)

How much oil will be lifted in Senegal this year?

A total of 30.8 million barrels of oil is expected to be lifted this year. In February, Senegal's Soci t  Africaine de Raffinage (SAR) refinery processed oil sourced from the Sangomar field for the first time. What economic impact has oil brought to Senegal?

Is Senegal a good place for oil exploration?

A succession of discoveries off the Senegalese coastline since 2014 has made the country attractive to oil exploration companies. BP and U.S.-based company Kosmos are in partnership to develop two fields: the Grand Tortue (GTA) and the Yakaar Teranga hub. The GTA gas field straddles Senegal and Mauritania.

How much does the Senegal oil project cost?

The project, supported by the Leopold Senghor FPSO, started production in mid-2024 but it is not the only major oil project in Senegal. Woodside holds an 82% interest in the exploitation area and 90% in the evaluation area. The company has confirmed that the Phase 1 costs between \$4.9-5.2 billion.

Did Senegal get oil from Sangomar?

Senegal produced its first barrels of oil from the Sangomar offshore field, becoming the latest African country to join the oil-producing club. But it wasn't easy getting there. There has been a succession of discoveries off the country's coast since 2014.
