

Uzbekistan down-the-hole anchor drilling rig custom made

Our engineers and sales staff introduced the characteristics of HFGA47S Integrated Down the Hole Drill Rig in detail for the customer, and the customer was very satisfied. The deposit will ...

The drilling rig is mainly applied in RC drill, geothermal hole, anchor hole of deep basement foundation anchoring and reinforcement groundwork hole. Also, it is used in drilling in the drain ...

This integrated down the hole drill rig combines air compressor and drilling functions, perfect for DTH boring machine operations in mining.

High Lift Mountain Slope Anchor Drilling Rig||High Lift Drills For Sale?Want Price??Leave your needs and WhatsApp/WeChat/Email, and we will send it to you.?W...

Mine drilling rigs are one of the critical components of mining machinery designed to drill holes into the earth for various reasons from exploration, extraction, and construction. The design of ...

Application Mainly suitable for the construction of deep foundation pit support, foundation reinforcement engineering, and ground source heat pump holes of high-rise buildings, and ...

We're well-known as one of the leading drill rig, anchor drill rig, rock drill rig, hammer drill rig, down the hole drill rigs manufacturers and suppliers in China.

YGL-180GM is one kind of full hydraulic power head type drilling rig. It is mounted on a crawler chassis, driven by full hydraulic system which is the common borehole machine for vertical or ...

XQZ130 surface down-the-hole drill rig is a small-sized integrated down-the-hole drilling machine mainly developed for quarries, cement mines and other ...

Hole Diameter: 70-150 mm Hole depth: 60 m Drilling Method: Air Drilling & Mud Drilling & & Application AK-60 construction anchoring drilling rig is used for drilling anchor holes in deep ...

We're well-known as one of the leading anchor drilling rig manufacturers and suppliers in China. Please feel free to buy the best anchor drilling rig for sale here from our factory. All custom ...

The anchor drilling rig is mainly used for slip wave treatment engineering of railways, highways, water conservancy, and hydropower facilities, the ...

The drilling rig can be interchanged between down-the-hole and top hammer drilling to meet different application needs. And it is easy to transport due to its compact dimensions.

Product Profile YGL-180G is one kind of full hydraulic power head type drilling rig. It is mounted on a

Uzbekistan down-the-hole anchor drilling rig custom made

crawler chassis, driven by full hydraulic system which is the common borehole machine for ...

DTH drilling rig (Down-the-hole drilling rig) is a submerged hole drilling rig, whose core operating principle is to install a submerged hammer at the bottom of the drilling column, ...

When it comes to anchor, tie-back, and tie-down equipment, Malcolm Drilling owns a large fleet of Klemm dual rotary drill rigs and tools suitable for all types of drilling conditions.

The YGS series down the hole drilling machine are heavy-duty crawler drilling rigs developed by YG Machinery for high-intensity geological environments, which are suitable for hard rock, ...

High quality Custom Hydraulic Crawler Type Jumbo Rock Drill Jumbo Drilling Underground from China, China's leading Custom Jumbo Rock Drill product, ...

Anchor holes can be bored using a variety of drilling techniques including rotary, top-drive rotary percussive, Down-The-Hole hammer and augering. In difficult ground conditions simultaneous ...

BAUER RB rigs can be used for numerous drilling methods (with optional special equipment as needed and depending on the geological conditions); Air lift ...

PDKJ729S It is surface Down-the-Hole drilling rig with both uses of diesel and electricity. It is driven by diesel and electricity power, especially suitable for mines with electric ...
